Tunis, TUNISIA

Skills

- **Programming Languages:** Python (Advanced), HTML5, CSS3, SQL, Bash
- **Web Development:** Flask, REST, APIs, Front-End (Bootstrap, HTML, CSS), Deployment (GitHub Pages, Heroku)
- **Automation:** Python Scripting, Web Scraping (Beautiful Soup, Selenium)
- **Machine Learning & Data Science:** Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-Learn, Google Colab
- **Tools & Platforms:** PyCharm, Jupyter Notebook, Git, GitHub, SQLite, PostgreSQL
- **Game Development:** Python (Blackjack, Pong, Snake)

About Me

I am a dedicated and curious second-year Software Engineering student at INSAT Tunis with a strong passion for technology, innovation, and problem-solving. I thrive on learning new programming languages, tools, and technologies and enjoy applying my skills to build impactful software solutions.

Education

- **National Institute of Applied Science and Technology**
INSAT Tunis, TUNISIA September 2023 – Present
National Diploma of Engineers (DNI) in applied sciences (Ongoing)
- **Baccalaureate in Mathematics**
Bizerte Pilot High School, TUNISIA June 2023
Graduated with honors

Personal Projects

- **Game Development** November-December 2023
Created Python-based games such as Blackjack, Pong, and Snake, focusing on logic implementation, user interaction, and graphical interfaces.
Tools: Python, PyCharm
- **Automation** February - March 2024
Automated job applications on LinkedIn and developed an auto-swipe feature for Tinder, using Python to interact with web elements and automate repetitive tasks.
Tools: Python, Selenium, Beautiful Soup, Request
- **Web Development** May - June 2024
Built a fully-fledged blog website with authentication, RESTful APIs, and deployment on Heroku. Additionally, created a public API to interact with the platform.
Flask, Python, HTML5, CSS3, Bootstrap, SQLite, Heroku
- **Data Science Projects** June - July 2024
Conducted Google App Store analysis and explored Google Trends data, analyzing large datasets to draw meaningful insights using Python libraries.
Tools: Python, Pandas, NumPy, Matplotlib, Plotly, Google Colab
- **GUI Development** July - August 2024
Developed desktop applications using Python's Tkinter, focusing on creating user-friendly graphical interfaces and enhancing user experience.
Tools: Python, Tkinter

Languages

- **Arabic:** Native
- **French:** Fluent (DEL F B2)
- **English:** Proficient
